

Refer to this guide after installing the AuxZiliary Kit as described in the AuxZiliary Kit Installation Guide.

Scan this code or click for the step-by-step installation guide:

- The AuxZiliary Kit relay box has 8 relays total, with **power on the left** and **ground on the right**.
- Each relay is indicated by a rectangle and numbered, with the button that controls it labeled above.

HOLD the steering wheel button and **TAP** the AUX button whose behavior you'd like to modify.

Lat: Press to activate, press to deactivate

Mom: Hold to activate, release to deactivate

+: remember last state of button on start

-: button off on start

Bat: Works with ignition off

lg(n): Only works with ignition on

DashBoard Readout	Button Behavior
"Lat/Ig+"	Button Latched, Powered by Ignition, Recall Last State
"Lat/Ig-"	Button Latched, Powered by Ignition, Do Not Recall Last State
"Lat/Bat"	Button Latched, Powered by Battery
"Mom/Ign"	Button Momentary, Powered by Battery
"Mom/Bat"	Button Momentary, Powered by Battery

These can also be changed from the UConnect AUX button menu once activated from the "Other" submenu of the Tazer JL Mini.

NOTE: MAKE SURE the current draw of the device connected to each relay does not exceed the corresponding fuse's current rating. There are replacement fuses in the kit.

- **BE SURE TOTAL CURRENT DRAW DOES NOT EXCEED 60 AMPS.**
- **TARGET 1/2 OF THE FUSE RATING FOR CURRENT DRAW.**

NOTE: By default the Sway Bar button will act as an additional AUX relay. **For OEM Sway Bar button function, HOLD** the steering wheel button and **TAP** the **Sway Bar button** until you see "SB: AS OEM."

NOTE: The **Locker Button Bank** (Front+Rear, Rear, Off, Sway Bar) is disabled once the vehicle is **moving**.

NOTE: When using the relay board to disconnect lockers, the **dashboard MAY display a "SERV 4WD" error** until the lockers reconnect. **The only way around this error is to disable ALL locker messages on the dash. HOLD** the steering wheel button and **TAP** the **Locker OFF button** until you see "Lockers: NO." Set to "Lockers: YES" to reinstate messages.
